EVERYTHING YOU NEED AND MORE

Our luxury composite material delivers seamless style and versatility to ensure a fabulous finish for your kitchen, bathroom or utility room.

Digital technology combined with experienced craftsmanship bring your new dream worktop design to life and complete any kitchen. A flowing solid surface top with seamless joins made to any length or depth can be created to fit your specific dimensions.

Our classic range of features include coved upstands and backsplashes, curves and shapes that contour smoothly with the profile of your walls and worktops that blend to the floor whilst integrating to window sills.

Everything you need and more.

wharf

Our exceptional customer service is backed by an extensive 10-year product and workmanship warranty providing confidence that you have made the right choice.

wharf **overlay**

SEAMLESS THE EASY WAY

Created from the same luxury composite material used in our classic range, overlay tops fit seamlessly and entirely over your existing worktops.

Wharf overlay is a popular solution to kitchen upgrades because it allows existing worktops, appliances and cabinets to remain in place therefore creating less mess and hassle during kitchen renovations.

You can keep your existing sink or opt for one of our seamless moulded models to enjoy the full benefit stunning material

Ingeniously designed to incorporate patent-pending strengthening technology, wharf overlay is focussed on sustainability by reducing landfill waste.

Why choose wharf **worktops**.

- **Infinite Solutions** – There are no restrictions to how long or how wide a worktop can be, a truly unique product to offer creative solutions not possible in other materials no matter how challenging the kitchen layout.
- **Seamless** – no surface joins – really important for large surface area, corners and height changes.
- **Bespoke Flexibility** – Incorporate window boards, upstands, non-drip lips, slab-ends and splash backs all seamlessly in full Wharf.
- **Silicone / Grout Free** – with covered upstands and moulded sinks there will never be deterioration around joints, upstands, tiles etc. No future maintenance.
- **Hygienic** – Nowhere for mould or bacteria to take hold as the joins are seamless.
- **Easy Maintenance** – No sealing or special products are required.
- **Non Porous** – 100% waterproof / non staining, marks can be easily wiped or polish clean.
- **Professional Installation** – a guaranteed fit every time.
- **10 Year Guarantee** – Peace of mind
- **Repairable** – Accidents do happen, be safe in the knowledge we can offer an inconspicuous repair if required.
- **Polishing Service** – Worktops can be repolished to bring them back looking new.

Insist on seamless joints.

wharf worktops

A seamless join can do so much more then going around corners and **opens up a world of opportunities.**

There's no limit to the size of an island.

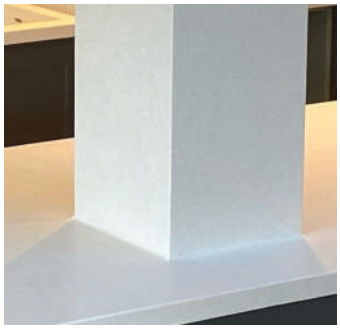
Internal and external curves.

Run the worktop seamless into the window at the same level.

Seamless changes in heights.

Join the windowsill to the upstands.

Waterfall ends appearing as part of the worktop.



We can even go around round units and square pillars.

wharfworktops

It's all about sinks.

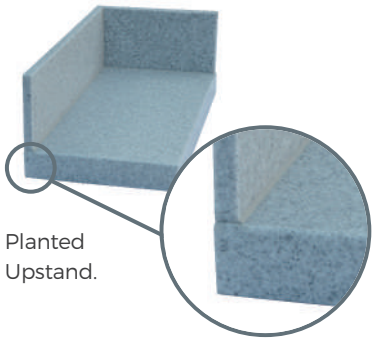
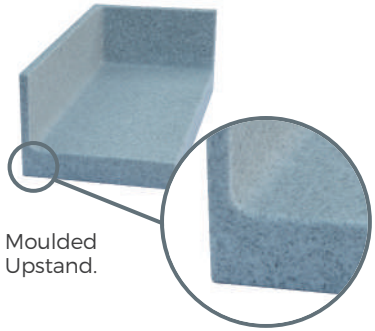
Back Splash.

Slab-end.

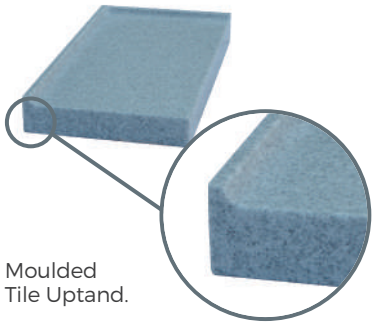
Upstands



Planted Upstand.



Moulded Upstand.



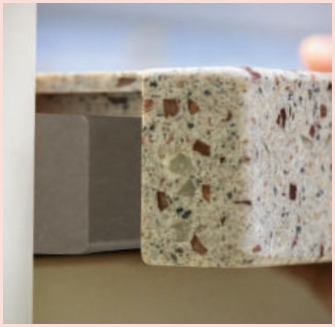
Moulded Tile Uptand.

Why go for overlay.

The precision-cut new worksurface ingeniously fits over your existing surface.

All the benefits of a seamless worktop – stylish, hygienic and a 10 year warranty with out all the hassle and mess of taking out the old worktops.

- You don't even need to empty the cupboards.
- We make it fit every time no matter how challenging the layout.
- No damage to existing tiles or splash backs because the current worktops stay in place.
- Our tops are strengthened using our own patent pending innovation
- We cover any existing worktop e.g. laminate, wooden, tiled, granite, quartz and stone worktops.
- Any type of inset sink or hob.
- Wharf upgrades include: moulded sinks with drainer grooves and a non-drip lip, planted upstands, hob back splash and we can even overlay the window sills.



Once successfully fitted no trace of your existing worksurface is visible and existing appliances can be effortlessly reinstalled.

Seamless the easy way.
